WALL STREET SOBER.

WANING EFFECTS OF THE GREAT CENTRAL SALE -A PORTION OF THE STOCK SHIPPED TO LONDON-A FLOOD OF BUMORS CONCERNING

BRIE. Wall street had toned down materially yesterday from the day before. New York Central was very strong; but most of the stocks which went up Friay, presumably on the strength of the Vanderbilt either fell off a bit yesterday or else barely held their own. Nevertheless the air was thick with nors of every kind, combinations in this or that stock being the favorite form of invention. There was little new to tell about the facts of the Central sale, but the motives which prompted Mr. Vanderbilt to the bargain were enstrued over and over again. Many attributed upward movement in Eric to him, and it was id he was anxious to unload. This theory had for basis the supposed purchase of large amounts of er of Central, when he was trying to prevent the Western combination from reaching seaboard over that line. The next step in the theory was that Mr. Vanderbilt having compelled the opposition to treat with him turn compelled by Messrs. Gould, Sage and others to sell the Central stock as a posiive guarantee for the permanency of the contract etween them. The third step was that all having been accomplished, the combination made, it became necessary for Mr. Vanderbilt to dispose of his Erie stock, he having no further object in its reten-tion. It was claimed that all the stories in circuistion about a combination in Eric were the accom-paniment of an effort to unload. Whether all or ny portion of the above theory was true could not be known to anybody outside of Mr. Vanderbilt's confidence. Certain it is that Erie went up Friday and went off yesterday in a style that astonished even the oldest residents of Wall street.

DOES ANYBODY OWN ERIE? Contrary to all that has preceded comes a state ment, which is said to have originated with Mr. Jewett, to the effect that Mr. Vanderbilt does not nd never has owned any Erie stock. This state-

and never has owned any Erie stock. This statement is said to mean more than that his name has not appeared on the books of the company—to mean that he has never controlled any of the stock. Very few people on 'Change could be induced to believe this new and astonishing aspect of the case, but then Wall street people just now can hardly be induced to believe anything.

An officer of the company said to the reporter that there was no truth in the story of an Erie combination either to let Mr. Vanderbilt in or out of the stock. He said that the fact was Erie had been purchased by people at large, who seemed to think that a large operation in it was pending. Said he:—"You must not use my name, for I am an officer of the Erie company; but I can't see any sense whatever in the excitement now existing over the stock. Millions of money must be expended for stations, curves and other improvements before Erie will be on a fair looting." "Does Mr. Vanderbilt own any of the stock?" asked

"Does Mr. Vanderbilt own any of the stock?" asked the reporter.

"He does not."
"Dtd he own any of it previous to the late election of directors?"
"That I cannet answer."
"Rumor has it that Mr. Keene was buying it heavily yesterday," said the reporter.
"That is another mistake, Mr. Keene does not own a dollar's worth of Eric."
"He is a director?"

own a dollar's worth of Eric."

"He is a director?"

"Well, he may have enough stock in his name for that, but he don't own any; that is certain."

TO BE ALLOWED ANOTHER REPRESENTATIVE.

It was stated officially yesterday that the syndicate which purchased the Central stock will be allowed one more representative in the Board of Directors of the New York Central and Hudson River Railroad Company, and that Mr. Solon Humphreys will be elected to that position at some future date. Rumor said that Mr. James H. Bauker would be the director to retire. It was also announced by one of the most prominent members of the syndicate that no single member of that body can seil the part of the stock to which he is entitled, and that they will not be able to obtain possession of the same before the ens of 1880, until which time the management is confided exclusively to a joint committee in London and New York named by the parties in interest.

The syndicate have anticipated the second instalment of New York Central stock by 11,000 shares, making the amount taken during the past two days \$1,000 shares. Each member of the syndicate has paid for his proportion of the stock in cash, and has received a receipt for the money from Drexel, Morgan & Co. One-half of the stock already turned over to the syndicate was shipped to London yesterday, and of the whole amount 8,000 shares were taken by the German interest.

THE MARKET TESTRIDAY.

The market opened heavy and the recorded transactions during the day amounted to 464,237 shares of common and 7,100 shares of preferred stock. The business in New York Central aggregated 1,906; in Lake Shore, 27,181; in Wabash, 81. Louis and Pacific, 8,700 common and 11,575 preferred, and in Toledo and Wabash, 8,500 shares. At the opening prices declined from one-half to six and a half per cent as compared with the closing quotations of Friday.

THE COURTS.

THE COURTS

HONORABLY DISCHARGED. Antonio Priesco, charged before United State Commissioner Shields with opening and detaining a registered letter addressed to Signor Marietta Zenore, was brought up for further examination yesterday Ashley W. Cole appeared for the defence, and Assistant District Attorney Wetherbee for the prosecution ant District Attorney Wetherbee for the prosecution. Vincenzo Martiro, who, with Priesco, keeps a barber shop in the New Bowery, testified that a letter carrier came to the place and said he had a letter for him; told him where to sign for it, and went away without looking at the address. He tore away the end of the envelope, and a customer coming in at that moment, he laid the letter down on the case. Priesco came in a moment later, and taking it up, said that it was not addressed to him, but to a lady residing in Brooklyn, and he took possession of it to forward to her. This statement was corroborated by the accused, and at the conclusion of the testimony Commissioner Shields at once ordered his discharge.

ADMIRALTY DECISION.

A decision was rendered yesterday by Judge Choate in the United States District Court in the admiralty suit of Niles Roer, master and part owner of the Norwegian bark Plutarch, against the steamship Baltic. The suit was brought to recover demurrage con sequent upon a collision at sea between the steamship and the bark on June 2, 1879. The damage to the bark was repaired at the expense of the steamship line upon the arrival of the former at this port. In the decision given yesterday Judge Choate orders a decree to be entered for the libeliants for sixteen days' demurrage and the costs of action, amounting in all to about \$1,200.

SUMMARY OF LAW CASES.

The examination of James Boyd, Jr., alias "Jim" Brown, accused of seiling a large quantity of counterfeit silver coin to an officer of the Secret Service Department, was continued yesterday before United States Commissioner Deucl. Officer Foster was examined further by General Foster, and went into detail as to the manner of gaining the confidence of the operators and securing the sample and subse-quent quantity of coin which was handed to Officer Bauer. The examination will be continued next Thursday.

Bauer. The examination will be continued next. Thursday,
John Smith, who kept a saloon at No. 13 Oliver street, was tried and convicted in the Court of General Seasons in March last of murder in the second degree, having killed a salior named. Henry Madden by shooting him in the neck with a gun. He was sentenced to be imprisoned for life. The case was taken on appeal to the General Teran of the Supreme Court, where the judgment of this Court below was reversed. Smith was yesterday admitted to bail, the sum being fixed at \$3,000.

NEW CATHOLIC DIOCESES.

The HERALD's cable despatch from Rome regarding the proposed creation of three new Roman Catholic bishoprics in the United States is a subject of general discussion in Catholic circles in this city. It has been generally understood for some time past that such a step was in contemplation, but no one seemed to have any positive knowlone seemed to have any positive knowledge of the location of the new dioceses. It seems to be pretty generally understood, however, that the diocese of New York will be divided into two, Poughkeepsie being made the centre of a new bishoprie; and that the State of Iowa, now all instuded in the diocese of Dubuque, will be similarly divided. Opinions vary very widely as to the third new diocese, and those who might be expected to be best informed on the matter evidently know no more than the general public. In general the prewth of the Catholic Church in the United States and it is thought that still further changes in the same direction must take place in the course of a few years as the Western States become more thickly populated, "If Mr. Froude," said a prominent Catholic layman, "had only waited a few weeks before writing his foolish article about the growth of the Catholic Church in the United States he would have a fresh cause for alarm. But republicanism has nothing to lear from us. We are as good republicans as the Protestants, and in politics we keep the priests in their proper place."

The names of several prominent clergymen were mentioned as likely to be promoted to the new brishopries, but in this, as in the matter ofche localities, great uncertainty prevails, and all are waiting for the decision of the Cardinal. edge of the location of the new dioceses.

NAVAREO DEFFATS A PARTY OF INSURGENTS UNDER CARILLO-TWENTY-THREE OF THE LATTER KILLED.

HAVANA, Nov. 29, 1879. Captain General Blanco sends a telegraphic despatch to the Vice Governor General in which he states that Lieutenant Colonel Navarro, with his (Blanco's) escort and forty cavalry volunteers, defeated and completely dispersed at Sabanos Nuevas, in the Province of Santa Clara, a party of insurgents under the leadership of the Chief Carillo. The Captain General states that the troops killed twenty-three of the insurgents and wounded many others. Among the wounded were two brothers of Carillo. Navarro's force also captured the so-called Colonel Castillo and the insurgent Bonachea, together with a considerable number of horses and arms and a quantity of considerable muntions, andi liberated twenty-nine negroes whom the insurgents had forcibly taken from the plantation Adela and other sections. The Spanish troops hearing the shooting between Navarro's force and the insurgents came to the spot and helped to complete the destruction of the enemy. A few of the

THE AFFAIRS OF THE UTES.

DENVER, Col., Nov. 29, 1879. Special despatches to the Denver Tribune represent that indignation is felt toward Stanley, the agent at Los Pinos, on the part of the commission, because of the part which he has taken. It seems that the Commissioners had previously requested for good reason, Secretary Schurz to issue an order to Stanley to have nothing to do in the way of negotiations with the Indians; but contrary to instructions he received the money (\$31\$) taken from Mrs. Meeker. The Commissioners object on the ground that the hostiles consider this a bribe, and that it has been accepted as such and will serve to procure terms of reconciliation. The Commission has been offered bribes of ponies and money of ten times the value of the gift to Stanley, but declined to accept, of course. Bad feeling has existed for ten days or more against Stanley, and the members of the commission have for that time refused to speak to him. A correspondent at Los Pinos states that he feels disappointed that he was not appointed to do the work done by Adams. Hence he has taken steps to throw stumbling stones in the way of the Commission. The feeling prevails in Colorado that he is both incompetent and unfair, and should be removed. It is believed that Adams has made a request for his removal. The Commission is making no progress whatever. an order to Stanley to have nothing to
